- Your options are near limitless

Custom Made Curtain **Fabrics**

Sheer Unlined Curtains

Sheer, unlined curtains diffuse light, creating a sophisticated, ethereal elegance. Visually light and dreamy they soften any space whilst filtering UV and protecting interior furnishings.

Our custom-made curtains are made in New Zealand by our skilled team who ensure flawless quality in a variety of headings or Roman blinds.

Enhance your home décor with:

- Soft floating sheer over a block-out roller blind
- Dim-out a bedroom with the addition of a block-out curtain or block-out lined sheer
- Use double tracks to have options to filter light during the day and another curtain for night

Our expert interior advisors will guide you every step of the way

Custom Made Curtain **Fabrics**

Curtains (no lining required)

Self-lined block-out curtains are perfect for keeping rooms, especially bedrooms, dark. These elegant curtains assist a restful sleep and they are good insulators.

Room dimming fabric with thermal or triple weave as part of its construction does not need further lining fabric. Creating a beautiful wave drape with sophisticated solidity, dim-out and block-out curtains add depth to any room.

Our custom made curtains are made in New Zealand by our skilled team who ensure flawless quality in a variety of headings or unlined Roman blinds.

Enhance your interior décor with:

- A practical opaque
- A choice of stylish pleats and gatherings
- Dim-out or block-out with thermal control
- Roman blinds to match any décor
- Combine with a sun-filtering roller blind
- Use double tracks to add sheer curtaining for day

Available in: Halifax and Cato ranges

Halifax Blockout
8 colourways

Cato
13 colourways

Curtains (requires a lining)

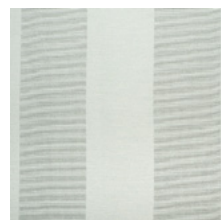

Block-out curtains are the perfect choice for keeping rooms, especially bedrooms, dark. These elegant curtains assist a restful sleep and they are good insulators.

Block-out fabrics are lined with your choice of lining to enhance the elegance of an opaque fabric, or transform a dreamy sheer into a customised layered curtain. Creating a beautiful wave drape with sophisticated solidity, blockout curtains add depth to any room.

Enhance your interior décor with:

- A sophisticated opaque
- A choice of stylish pleats and gatherings
- Blockout and thermal control
- Roman blinds to match any décor
- Combine with a sun-filtering roller blind
- Use double tracks to add sheer curtaining for day
- Your options are near limitless

(Larger sizes may be possible so please discuss your requirements with your sales representative)

Custom Made Curtain **Fabrics**

Linings

Linings add weight and fullness to the appearance of your curtains. They can be used with any sheer fabric, transforming them into a layered opaque curtain. Using lining with any solid fabric produces a quality weighted curtain.

Linings create the protective layer that faces the window and is seen from outside when the curtains are drawn

Benefits of lined curtains:

- Prolong the life of your curtains
- Protect your furnishings
- Provide thermal benefits to your home, keeping it warmer in winter and cooler in summer.

Available in: Satinline, Twilight and Simplicity ranges

Satinline 3 Pass Blockout Flock Coated lining in Ivory only

Satinline is a polyester base lining fabric which has had 3 passes of flock coating applied.

The combination of the polyester base fabric and the flock coating has created a soft draping wide width blackout lining, suitable to enhance curtain and Roman blind main fabrics.

Suitable for: Curtains and Roman blinds

Twilight Triple Weave lining

Twilight Triple Weave lining is a hi-tech, 100% polyester and fire-retardant fabric with woven in dim-out properties.

The individual 15 colourways to choose from are also colour tonal front to back of the fabric.

- No need for a further thermal application to the fabric.
- Washable, providing the face fabric is also washable
- Anti-fungal and mould resistant
- Fire retardant

Suitable for: Curtains

Simplicity Silicone 320cm lining

With durability and style in mind, Simplicity silicone lining is a 100% polyester fabric base with 4-pass coating of silicone application.

- Wipeable and machine washable (providing face fabric is also machine washable)
- 23 fashion colourways
- Light blackout
- Fire retardant and noise reducing with thermal benefits.

Suitable for: Curtains and Roman blinds

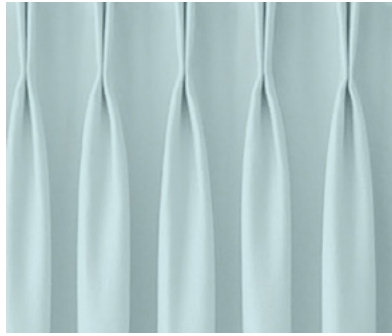

Custom Made Curtain **Headings**

Single Pleat

A contemporary modern style, the Single pleat is customised to bring the face of the fabric forward within a single tailored pleat.

- Pleats are evenly placed between 100mm-120mm apart with 100mm depth buckram stiffening
- Fabric fullness is 1.85 x track width
- Curtain attached with innovative Microflex hook

Double Pleat

A classic heading style, also known as the Dutch Pleat.

- Pleats placed evenly between 100mm-120mm apart with a bar tack stitch approximately 20mm from the bottom of pleat
- 100mm depth buckram (stiffening insert)
- Fabric fullness is 2.0 x track width
- Curtain attached with innovative Microflex hook

Inverted Pleat

A sleek modern heading style also known as Reversed Pleat with the customised flat plain stitching facing toward the back of the curtain.

- Pleats are evenly placed between 100mm-120mm apart
- Pleats pressed flat and stitched down the centre to the full depth of the buckram (stiffening insert)
- Fabric fullness is 1.85 x track width
- Curtain attached with metal pin hook

Pencil Pleat (Gathered Heading)

A traditional heading with a manually gather at installation time.

- A 50mm or 75mm depth heading tape is sewn to the rear of the curtain
- Flat sewing tape in parallel with stitching lines across the length of the tape to the curtain fabric
- Fabric fullness is 2.0 x track width
- Curtain attached with standard plastic hook

S - Fold Wave Pleat

A minimalist style, incorporating a gentle wave heading which glides below the track for a seamless flow.

- A nylon clear heading tape is applied to the top of the curtain, with the depth of the tape being 75mm
- Fabric fullness is 1.85 x track width
- Curtain attached to the track with standard plastic hook

New York Pleat

An elegant modern styled heading bringing together the pleat of the Inverted heading and the softness of the Wave Pleat

- Pleats are evenly placed between 100mm-120mm apart
- A pleat pinch is 10mm deep and face the rear of the curtain
- 100mm depth buckram stiffening insert
- Fabric fullness is 1.85 x track width
- Curtain attached with a curtain pin hook to hold the soft front facing wave effect in place
